NRDC
Promoting innovation, Entrepreneurship & Start-ups
Your Technology Partner Since 1953

NATIONAL RESEARCH DEVELOPMENT CORPORATION
An Enterprise of DSIR
Ministry of Science and Technology, Govt. of India
National Research Development Corporation (NRDC) is a Government of India enterprise, established in 1953 under Department of Scientific & Industrial Research (DSIR), Ministry of Science and Technology, Govt. of India, for promotion, development and commercialization of the technologies/ know how/ inventions/ patents/processes emanating from various National R&D institutions and has forged strong links with R&D Institutes from almost all fields of science in the country.

During its existence for more than last seven decades, the Corporation has transferred technologies to more than 5000 entrepreneurs in India and abroad and have filed more than 1700 patent applications on behalf of various R&D labs and Institutes in India. NRDC has a technology database of about 2500 handpicked innovative technologies for which Proof of Concept (POC) have already been completed and these technologies/innovations are ready to be transferred from the lab to the market for the benefit of the society. Majority of technologies transferred are from the sectors of food, agriculture, dairy, herbal, engineering and allied areas, chemical, textiles, biotechnology, electric and electronics, etc.

NRDC Transforms Innovative Research into Profitable Technology
Vision, Mission and Mandate

VISION
To be a leading Technology Transfer Organisation in India and abroad

MISSION
To promote, develop, nurture and commercialise innovative, reliable and competitive technologies from R&D institutes through value addition and partnership

To sensitise R&D institutions and industry about technologies that needs to be developed and commercialised

MANDATE
To provide handholding services to technology licensees

To provide need based consultancy and information on S&T matters to stakeholders viz., Government, Think tanks, PSUs, Private companies, etc.

To facilitate and implement Government of India S&T promotional projects and flagship programs within country and abroad
NRDC’s Footprints

- Delhi
  - NRDC Headquarter
  - NRDC Incubation Centre

- Visakhapatnam
  - NRDC-IPFC
  - NRDC-World Intellectual Property Organization (WIPO)-Technology & Innovation Support Centre (TISC)

- Bhubaneswar
  - InTec, Business Incubator
    - With CSIR-IMMT

- Pune
  - NRDC Outreach Centre

- Bengaluru
  - Mach33.aero,
  - NRDC Incubation Centre

- Guwahati
  - NRDC Outreach Centre
NRDC joined WIPO GREEN as a technology partner for promoting environment friendly innovations and the diffusion of green technologies for sustainable development.

MoU has been signed between NRDC and AARDO for addressing challenges in AARDO member countries through technological innovations in the fields of agriculture and rural development.

NRDC has collaborated with USPTO for organizing training and capacity building programmes in the field of IPRs, technology transfer and commercialization for promoting the innovation/economic growth in India.

NRDC has signed an MoU with EBTC for capacity building in intellectual property and commercialization of IPRs.
Technology Partners

- National R&D Organisations
- Academic Institutions
- Public Sector Organisations
- Industry Association
- Privately owned Research Institutions
Technology Sectors

- Aerospace Engineering
- Food Processing
- Agriculture/Horticulture/Sericulture
- Life Sciences
- Biotechnology
- Marine Engineering
- Chemical & Allied Industries
- Mechanical & Metallurgy
- Civil Engineering/Building materials
- Nano- Engineering
- Dairy Industry
- Nuclear Engineering
- Drugs & Pharmaceuticals
- Veterinary & Fisheries
- Electrical & Electronics
- Herbal
Services Offered

- Licensing and Technology Commercialisation
- IP Consultancy / IP Portfolio Management
- Incubation Services
- Training Workshops / Capacity Building on ToT and IP
- Fund Management for startups under various schemes of Govt. of India

Value Addition of Technologies

- Funding Support for Technology Development, Validation and Commercialisation
- IP Protection
- Techno-Commercial Evaluation
- Basic Engineering Design
- Market Survey
- Feasibility Study
- Funding for Prototype development for Priority Projects
NRDC is a one stop shop for Start-ups, Innovators and Entrepreneurs
NRDC has filed more than 2000 Patent applications and managing IPR portfolio (Patents, Trademarks, Designs, Copyrights) of R&D Institutes, Educational Institutes, Individual Inventors, startups etc.

Services offered in the field of Intellectual Property:
To leverage the innovation ecosystem in the country, NRDC has established an Incubation Centre in its premises at New Delhi, CSIR-NAL, Bengaluru and CSIR-IMMT, Bhubaneswar.

**Incubation Center**

- **24*7 co-working space and infrastructure support**
- **Funding**
- **Mentoring**
- **IPR Support**
- **Access to Technology databank**
- **Networking**

**Selection criteria for Incubation**

- Innovation component of product/service being developed
- Stage of development of the product/services
- Business model of the startup
- Feasibility of the product/service being developed and scope of scalability
- Market potential of the product/service being developed
- Financial strength of the startup
- Team strength of the startup
NRDC, the leader in Technology Transfer in India is particularly equipped to maximise the earnings of R&D institutes from licensing of know-how through multiple licensing.
NRDC is your window to

- Information and updates on the latest technologies of India
- Technology Assignment and Technology Licensing
- Assessment of Commercial Potential of Inventions
- IPR Protection
- Support services for start-ups/MSMEs and individual innovators
- Consultancy services for various Government based schemes and International projects
Promoting Innovations, Transforming Lives
