

NRDC joined WIPO GREEN as a technology partner for promoting Indian technologies globally for sustainable development

Press Release

National Research Development Corporation (NRDC), under Department of Scientific and Industrial Research (DSIR), Ministry of Science & Technology, Govt of India has joined WIPO GREEN as a partner in the WIPO GREEN TECHNOLOGY database globally. WIPO GREEN is the marketplace for sustainable technology administered by the World Intellectual Property Organization (WIPO) of United Nation, in order to promote environmentally friendly innovation and the diffusion of green technologies and it is an online platform for technology exchange. WIPO GREEN matches green technology providers with technology seekers through its online database of green technologies (patents, products, know-how, etc.) listed by participating organizations, and promotes utilization of green technologies. It supports global efforts to address climate change by connecting providers and seekers of environmentally friendly technologies. Through its database, network and acceleration projects, it brings together key players to catalyze green technology innovation and diffusion. NRDC as a national technology transfer entity and has been serving the nation for more than six decades in technology information, technology transfer and IP management, with the objective to promote, develop and commercialize the technologies / know-how/ inventions / patents / processes emanating from various national R&D institutions / universities. NRDC has forged strong links with the scientific and industrial community in India and abroad and developed a wide network of research institutions, academia and industry and made formal arrangements with them for the commercialization of know-how developed in their laboratories. It has transferred & licensed the indigenous innovative technology to over 5000 entrepreneurs. NRDC and WIPO GREEN look forward to contribute to our common goal, which is the technology transfer related to climate change, dissemination of environmentally sound technologies and the achievement of Sustainable Development Goals (SDGs). It is one of the most important challenges that NRDC contribute to environmental conservation across all of technology networking & business activities nationally & globally. While emphasizing on this development, Commodore Amit Rastogi (IN, Retd), CMD, NRDC said “We being the Leading Technology Transfer Organization under Ministry of Science and Technology, Govt of India look forward to have an active engagement with respect to WIPO Greens charter and contribute to bring Green Technologies, serving UN SDGs, to the fore. I am confident that we can fulfill these objectives especially so at a time when India is enjoying the Presidency of G20 under the dynamic leadership of our Hon'ble Prime Minister of India Shri Narendra Modi”. The focal point for this activity is Dr B K Sahu, he can be reachable @bksahu@nrdc.in.
